## Overview of Q2 results

## Q2 Executive summary

## 1. Consolidated results overview

## - Achieved record profits for 1H

The first half-year results for FY2024 exceeded 1 trillion yen in sales for the first time for a half-year. Record high profits were achieved in both 1 H and Q2, with sales of 1,047.6 billion (up 69.1 billion or $7.1 \%$ ), Operating income of 75.5 billion (up 18 billion or $31.4 \%$ ) and Operating income margin of $7.2 \%$ (up 1.3\%), driven by domestic retail sales, which continued to grow.
$\checkmark$ The overall performance was driven by the DS business which responded to inflation with cost performance, developed a merchandising strategy based on a well balanced product lineup, increased duty free sales, and captured demand for outings and events.
$\checkmark$ Gross profit: Gross profit was 331 billion (up 28.6 billion YoY) and the gross profit margin was $31.6 \%$ (up $0.7 \%$ YoY), above forecast, as a result of growth in PB and OEM both in Japan and overseas, as well as ongoing inventory control.
$\checkmark \quad$ SG\&A: Despite strategic investments, the SG\&A ratio is below both the previous year and the forecast at $24.4 \%$ (down $0.6 \% \mathrm{YoY}$ ) due to sales growth and SG\&A control, including a review of appropriate staffing levels in Japan and overseas.

- Full-year forecasts revised upwards; medium-term management plan expected to be brought forward by one year.
The company expects to achieve the "Visionary 2025" medium-term management plan targets of 2 trillion yen of sales and 120 billion yen of operating income one year ahead of schedule, by further increasing its earning power through reform of its profit structure, while focusing on investment in growth and human resources development. ## Discount Store Business

## FY2024 1H Change in Sales

## FY2024 1H Change in Operating income

<Billion yen>

DS business continued to drive consolidated results, with sales of 660.5 billion yen ( +70.8 billion yen from 1H FY2023) and Operating income of 44.8 billion yen ( +14.5 billion yen from 1H FY2023).
$\checkmark$ Existing store sales landed at $110.4 \%$ YoY.
> Tax-free sales totaled 50.2 billion yen in the first half (up 42.1 billion yen YoY), a significant increase due to an increase in the number of foreign visitors to Japan, infrastructure development, and other factors. December sales exceeded 10 billion yen, reaching a record high.
> Customer numbers at existing stores grew by 101.9\% YoY, mainly due to the success of the 'Maji-Kakaku'(Serious Price) initiative, which began operating in each trading area.
$\checkmark$ Existing store gross profit margin improved to $26.8 \%$ (up $0.7 \%$ YoY).
> PB and OEM sales grew due to improved brand recognition, with the sales composition ratio landing at $18.8 \%$ (up $2.0 \%$ YoY).
> Existing store inventories were reduced by 7.7 billion yen YoY.
$\checkmark$ SG\&A expenses increased due to investment in growth, however, the SG\&A to sales ratio was down by $0.8 \%$ YoY due to sales growth and a decrease in utilities costs.

## DS business: progress on opening new stores

## Don Quijote Keikyu Kamata(Tokyo) (Opened on November 22, 2023)

Opened a new Donki store in a shopping center directly connected to a station, which is highly convenient for commuters. As a new stationfront store, the store performed well, exceeding the forecast.

- The store is equipped with self/semi-self cash registers and offers a nowait shopping service to capture the demand for a quick stopover.
- The first floor will focus on food and consumable items to capture convenient everyday use demands. The second floor, aimed at women from Generation $Z$ to their 30 s, will feature a variety of trendy items such as popular cosmetics and color contact lenses.

## Kirakira Donki Tanuki Koji(Hokkaido) (Opened on December 1, 2023)

Kirakira Donki, the third store in Japan, is designed to meet inbound demand while primarily targeting Generation Z customers, based on the characteristics of the area.

- The store aims to be a trend-setting center where customers can casually drop by during their commute to work, school, or sightseeing with convenient access just a 3-minute walk from the station.
- In addition to food souvenirs centered on popular Hokkaido gourmet foods, the store will be the first Kira Kira format to offer pharmaceutical products, in anticipation of inbound demand.
- With the neighboring MEGA DQ Tanukikoji Honten and Don Quijote Susukino, the three stores are to be viewed as a single entity, and the stores are to be designed to make the most of the area's characteristics.

## GMS Business

## FY2024 1H Change in Sales

## FY2024 1H Change in Operating income

<Billion yen>

Operating income increased by 5.0 billion yen from the previous 1 H as gross profit margin improved and SG\&A expenses remained under control.
$\checkmark$ Existing store sales were $99.5 \%$ of the previous 1 H level.
> Despite strong sales of summer products in Q1, existing store sales were $99.5 \%$ of the previous 1 H level, due to a weak start of fall and winter products.
$\checkmark$ Existing store gross profit margin increased further to $27.5 \%$ ( up $0.9 \%$ YoY).
> PB and OEM sales were successful due to aggressive sales expansion, such as placement of products in prime locations in stores and introduction of standard shelf allocation. The sales composition ratio grew significantly to $25.1 \%$ (up $5.3 \%$ YoY). (Gross profit margin improvement effect: +0.5\%)
$\checkmark$ SG\&A expenses were down 3.6 billion yen YoY (SG\&A to sales ratio: down 1.1\%). In Q2, sales promotions for the entire building were strengthened through TV commercials, flyers, and web advertising, while SG\&A expenses continued to be controlled by optimizing personnel allocation and integrating the functions of the Tenant and MD Divisions.

Gross profit margin at existing stores FY2022-FY2024

## Overseas Business

Strategic investments such as new store costs continued, and overall overseas sales increased but profits decreased. Operating income was higher than planned in North America, but struggled in Asia.

■Asia Business
$\checkmark$ Sales declined by 0.2 billion yen YoY, and Operating income declined by 0.9 billion yen YoY, resulting in a decrease in both sales and profit.
> Sales of high-end products such as sushi and fresh foods declined due to delayed response to changing consumption trends amid expanding demand for eating out. Lower sales per customer YoY were a factor pushing down overall sales.
$\checkmark$ Gross profit margin improved by $1.1 \%$ YoY due to an increase in the sales composition of PB and OEM and directly traded products, as well as pricing measures.
$\checkmark$ SG\&A expenses increased by 1.3 billion yen YoY due to the cost of new stores in each country, but came in under budget due to a decrease in expenses from the consolidation of head office functions and continued efforts to optimize personnel expenses at existing stores.

- North America Business
$\checkmark$ Net sales exceeded the previous year and the forecast at the beginning of the period. Operating income declined by 0.9 billion yen from the previous 1 H , but remained above the forecasted level.
> The establishment of a supply system from the central kitchen, stable product supply, and sales expansion of sushi and delicatessen contributed to the growth of sales and gross profit.
> Gross profit margin increased by $0.3 \%$ YoY as a result of strengthening PB and OEM.
$\checkmark$ In addition to new store openings, SG\&A expenses were controlled within budget despite investments in central kitchens, warehouses, and other facilities, as well as enhanced hiring of human resources.

## FY2024 <br> Initiatives for Q3 and onward

## Initiatives for Q3 and onward

$\checkmark$ New store openings: Steadily progressing toward the annual plan of opening 25 stores, including specialized formats with clear customer targets and stores directly connected to train stations. Continue to open new stores in various packages to expand domestic market share.
$\checkmark$ Tax Free Strategy: Continue to improve infrastructure (number of cash registers/strengthening hiring for peak hours) in order to further increase sales.
DS Business
$\checkmark$ PB and OEM strategy: Utilize the contents of the "Syojiki Review"(honest review) of "Maji-voice"(serious voice), and start product development reflecting customer needs.
$\checkmark$ Price strategy: Full-scale operation of "Maji-Price"(serious price) which lowers the price of products with high customer evaluation, started in March. Implement strategies to attract customers by offering prices that are exclusive to majica members.
$\checkmark$ Price strategy: To increase popularity in the trade area, items, mainly food and consumables, are selected by each store. Strengthen price appeals and at the same time, create stores that convey low-price feeling and create a store-wide incentive to come to the store.
$\checkmark$ Strengthen MD strategy: Capture new demand by introducing untapped housing-related category products for which there are latent customer needs. In addition, the company will simultaneously conduct related sales in the food section, while aiming to further increase the sales composition ratio of PB and OEM products and rebuild the branding.
$\checkmark$ Individual store management strategy: To enable stores to quickly and accurately implement pricing and product strategies tailored to the characteristics of the trade area, the number of stores per branch company will be reduced and a deeper store support system will be established to strengthen individual store management. At the same time, increase the number of branch president posts to create an organizational structure with a strong sense of competition, with clear wins and losses among branch companies.

## Initiatives for Q3 and onward

Asia Business

North America Business
$\checkmark$ Individual store strategy: To strengthen non-food categories from the traditional food-centered assortment, i.e., cosmetics, character goods for tourists in urban areas, and daily consumables and household sundries in suburban areas, in line with consumption in each trading area.
$\checkmark$ Human Resource Development: In order to spread best practices, as in the case of display and production techniques, increase the number of personnel from Japan who can provide technical guidance, and support the growth of local human resources. Make human resource development one of the pillars of the strategy in order to thoroughly delegate authority.
$\checkmark$ Strengthen PB and OEM: Strengthen locally manufactured PB and OEM in addition to PB and OEM and direct trade products from Japan. In addition, the company will also begin marketing strategies using SNS and other means to increase brand awareness.
$\checkmark$ Strengthen prepared food/sushi category: In Hawaii, trainers will be assigned to provide technical guidance in the prepared food, sushi and meat department to differentiate the company from competitors and attract new customers. In California, the central kitchen will be operated more stably to improve productivity and provide high quality items to improve profit margins.
$\checkmark$ Strengthen PB and OEM: For PB and OEM, promote product development with local manufacturers. In Hawaii, the company will improve warehouse operations to increase sales volume of directly traded products and boost earnings.
$\checkmark$ Investment for growth: Aggressive investment in business expansion through new store openings in the next fiscal year and beyond, as well as personnel reinforcement to strengthen the support system.

## (Reference) January Flash report of domestic DS/GMS business

Major Environmental Initiatives in Q2

## Reduction of $\mathrm{CO}_{2}$ emissions: introduction of off-site CPPA

Promote procurement of renewable energy to achieve $\mathrm{CO}_{2}$ reduction goals. Signed off-site CPPA in November 2023. Plans to newly supply power derived from renewable energy to MEGA Don Quijote, Apita, and other, a total of four stores. This is expected to reduce $\mathrm{CO}_{2}$ emissions by approximately 1,600 tons per year.

Target: Reduce $\mathrm{CO}_{2}$ emissions from stores by $50 \%$ by 2030 (baseline FY2013)

Plastic reduction: change of material for spoons and straws
From November 2023, spoons and straws distributed by customer service will be made of wood and paper. This is expected to result in a reduction of approximately 35 tons of plastic per year.
